

The counter strike global offensive game is a big time challenge for the players and to win in this game is not so easy. To win a round you have to remove and kill all the opponents or achieve the goal that is assigned to you in the map. It needs certain strategies and tips. There are some general instructions given to you to win in any mode. Just use them and enjoy tips to winning counter strike online the game.

### Tips To Win Counter Strike

the start of every round select a weapon very quickly without wasting any time. You always receive money at the start of every round. Use that money but don't waste a lot of it because for the winning round you will need at least \$3500 money to buy weapons. You can choose USp, Glock or HE grenade. Three of them are amazing to fight with.

For exploring the team map and for using the bombs, just stay close to your teammates. You must be an unpredictable player for killing the enemies with the bombs. Move slowly towards your enemies, they must not hear you coming.

While exploring the team map, instead of using weapons switch to your knife or pistol. It will allow you to run faster.

Beware of the places where your foes can appear suddenly like the nooks or the entrances etc.

Always fire your enemy on the chest or above it.

Striking into the army post is not a good strategy. The reason is army is always vigilant and always present in the basement.

Keeping a grenade is a good weapon to distract the enemy.

Shoot at the walls or covers like boxes where your enemy is hidden, because the bullets can penetrate into them. In counter strike global offensive bullets can pierce into any surface. Try to use a HE grenade for it.

While shooting, don't move. It will affect your accuracy.

Map name can be distinguished from the first two letters in Counter Strike. [CS maps](#) are hostage maps, Ts maps are terrorist maps. Try to distinguish the maps by the two letters before playing.

Keep an eye on the enemies' belts. It ensures the destruction of the opponents.

Try to learn the features of all the weapons for a better strike. Practice CV 74 and M4 weapons and learn more about them.

Hope these tricks and tips will help you play a better game and win it. Go ahead and good luck!!!!
